

INTERNATIONAL **STEEL** DISTRIBUTION

Quality and Service you can trust

Worldwide activities

Global sourcing capability

Adapting to the requirements of our customers

YOUR PARTNER WITH A WIDE RANGE OF PRODUCTS

BEPRO

Stockholding and Trading

The Company

Since its establishment in 1969, BEPRO-STAHL has developed into a company offering its customers the best service and a dynamic range of products. With its full line of in-stock products with special dimensions and grades, BEPRO-STAHL is the specialist for specialities.

BEPRO-STAHL has

- **the flexibility**
- **the organization and means**
- **the experience and possibilities**

to deliver steel products world wide, even if

- **short-term delivery/ shipment**
- **strict shipment regulations**
- **complex logistical requirements**
- **documentation, painstaking scheduling and precise order processing**

have to be observed and complied with.

BEPRO-STAHL has accumulated a wealth of steel trading expertise during the decades since its foundation. This enables the company to meet most specialized customer requirements in terms of order size and complexity. And we deliver anywhere, regardless of distance and geographic location.

The Philosophy

Our highest goal is always to meet and even exceed our customer's expectations and maintain good customer relations built on mutual trust and reliability. We strive to build on joint successes and to develop and prosper with our customers. BEPRO are committed to being a partner whose doings benefit our counterparts.

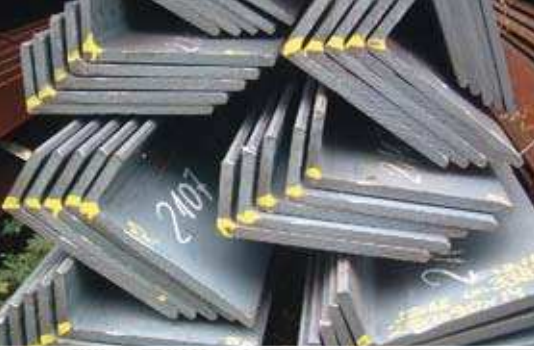

Quality assurance is our permanent focus.

Verification of quality properties by authorized certifying bodies and material testing by an accredited testing institute, e.g.

- **bend tests**
- **tensile tests**
- **Z-tests (through thickness test)**
- **ultrasonic tests**
- **impact testing at prescribed temperature**

Certification by ABS, BV, DNV, GL and LRS is possible at short notice.

All our traded products are certified according to EN 10204/2.2, 3.1 and 3.2 (formerly 3.1B, 3.1C).
